NexTex Updates

What to expect in the next update?

-Properly working autoscroll

-New commands for admins (such as kick/ban, etc.)

-Ability to have not only an admin but also moderators (able to do everything on the server as admins except shutting it down, banning/kicking the admin or other moderators, and adding new moderators)

-Ability to change the nickname for admins

-New method of searching for servers

-Now /server find will show not ips of the servers but their names.

---

v1.1.16 updates (THE LATEST)
